BY BOUTELLE BROTHERS.

An business letters should be addressed to George Boutelle, Boston, and commercial correspondence to publication should be addressed to Editors of Whig and Courier.

WEDNESDAY, OCT. 13, 1857.

The Great Musical Festival.

The Music and Musical Festival will open to this city this week. It is an event that means much for the state. The world has been surprised by some of the "parties" who, amid the applause that was showered upon them elsewhere throughout the world, did not forget their native state, but with a purpose as generous as it was loyal joined in the promotion of the grand project, the consummation of which is to be reached on Thursday. Dignified as the festival must prove as a social entertainment of the highest, its greatest feature will be educational work. In this respect the magnitude of the festival cannot be overestimated. It will be on an educational and educational scale, and fail to exert its reaching effect in the promotion of the moral culture of the people of Maine, which is the commanding object of its organizers. Artists whose names are known the world over are to participate in the grand interpretation of the work, the great masters to be under the direction of one who is now recognized among the most successful conductors of the time.

It is gratifying to know that the efforts so laudatory in their behalf are highly appreciated by the people of the state. There has been a most enthusiastic response. Business men here have gone forward and secured the loan of a suitable building for the accommodation of the festival, and social organizations in all respects of the state have contributed to the extent of their power, toward the success of the greatest musical event in the history of Maine.

Agricultural Attachments. The members of the Cabinet are now visiting Europe and Washington, and are engaged in their respective interests. Interests state that many agricultural attachmen-

ts are to be appointed. The Agricultural Department Secretary Wilson is making out an idea, contemplating the appointment of agricultural attachmen-

ts at United States embassies and legations in Europe, just as military and naval attachmen-

ts are now detailed at many of these stations. Outlining his plan to a newspaper reporter Secretary Wilson said:

"I have been very much impressed by the activity of the German Government in watching every move in the European countries. It has been a fact that I have but one idea, that is attached to the German Embassy, an agricultural expert whose duty is to keep his home Government informed of everything that is done in the agriculture of that country by his home Government. I believe this example set by the German Empire should be followed by the United States."

"We are under our present Constitution and diplomatic regulations our representatives abroad keep us informed regarding various kinds of trade, but, as far as we are now trained in agricultural matters, the results of experiments at our agricultural stations, the work of our agricultural colleges, and, in short, everything that is any important in the agricultural world is not reported by him to his home Government.

"I believe this example set by the German Empire should be followed by the United States."

"We are under our present Constitution and diplomatic regulations our representatives abroad keep us informed regarding various kinds of trade, but, as far as we are now trained in agricultural matters, the results of experiments at our agricultural stations, the work of our agricultural colleges, and, in short, everything that is any important in the agricultural world is not reported by him to his home Government.

"I believe this example set by the German Empire should be followed by the United States."

It help is to end in that it has come soon. Annexation will settle the issue and maintain American control of Hawaii and nothing else will.

It is further agreed that Hawaii would belong to the United States a greatly increased commerce with the Islands and that it would also give us control of their very valuable shipping. Further, that annexation would remove Hawaii from international politics and tend to promote peace in the Pacific by eliminating an otherwise certain source of international friction. The objectives, constitutional and otherwise, that have been made to annexation are taken up in detail by Mr. Thurston and analyzed. In answer to the general argument that the constitution does not give power to annex territories, the three interlocutors already accomplished are pointed out and the decisions of the Supreme Court on the subject are recalled. As to the claim that annexation would not be constitutional because Hawaii is not contiguous to the United States or because its population is not homogeneous, it is held that these facts affect the value of the property, but not the power to annex.

Mr. Thurston does not consider the Hawaiian population an undesirable one, nor does he think it will, if incorporated with us, be dangerous to the American political system. Neither does he think it will interfere with the best sugar industry in this country or with any other business. The property in Hawaii will not be more dangerous to America after annexation than before.

Another objection that has been made is that Hawaii is an outlying territory, which would be a source of weakness to us in time of war. Mr. Thurston thinks that exactly the opposite would be the case, and that Hawaii would be one of our strongest defenses on the Pacific side of the Atlantic.

Owing to the peculiar relation of Hawaii to the continent, Mr. Thurston sees no reason for holding that its annexation would be a bad precedent, nor does he think that there would be any violence done to the Monroe doctrine through it. A protectorate over the Islands, he does not think would answer the purpose. As to any objections due to the part played by Americans in overthrowing the monarchy, or to the failure to secure a popular vote on the subject in Hawaii, he casts them lightly aside.

Substitution in the fraud of the day. See you get Carter's, Ask for Carter's, Insist and demand Carter's Little Liver Pills.

BANGOR SAVINGS BANK.

Special Notice. A small sum of money, the rate of three and one-half per cent per annum, can be obtained by depositing.

DANGER SAVINGS BANK. payable on and after

MONDAY, OCTOBER 4, 1857.

Deposits withdrawn will be added to the principal.

LOCAL MATTERS.

At the Grand Central Library last evening the Grand Central defeated the Oldsmobiles 1188 to 1162.

George W. Draper for the larceny of a watch from Charles Whitmore, was yesterday given five months in jail.

A fine gold badge was presented to Officer Osgood last evening by friends on his beat. The presentation was made at Draper's drug store by Mr. Tandy.

The ladies of the Thursday class are requested to meet with Mr. Edward P. Boulton, at 44 Grove street, to-day at 10 o'clock to discuss plans for the coming winter.

The adjourned quarterly meeting of the King's Daughters' Union will be held at the Y. M. C. A. this afternoon at 4 o'clock. The "Danced manager's" meeting will be at 7 o'clock.

The funeral services of the late Mrs. Mary D. Davis will be held at her late residence on Court street this afternoon at 4:30 o'clock. They will be conducted by Rev. W. H. Gifford. Friends are invited. Burial private.

The funeral services of James F. Galbraith were held yesterday afternoon. Rev. G. B. Isley, D. D., officiated and Mr. Robert T. Clark sang several selections.

The burial will be at 10 o'clock. The remains were taken to Holden by Mr. A. P. Clark, who had charge of the arrangements.

The Malone Central railroad will run a special train from Oldtown and way stations Thursday evening for the accommodation of the up river persons of the festival. The special will leave Oldtown at 8:35 p.m. and will return after the evening's performance.

On Tuesday Chief of Police Gilman returned in charge of A. E. Grant and H. E. Warren, who were arrested at Foxcroft charged with forging to pay a board bill of about \$12, at the Bangor House. They were brought before the Municipal Court and the case was continued to Thursday at 8 a.m. when they expect to make a settlement.

The second eleven of the High School will play the Oldtown High School team this afternoon at Oldtown. The Bangor boys will line up as follows: L. E. Givens, L. L. Dugay, L. G. Sturtevant, C. E. Stoddard, R. G. Webster, C. E. Sander, G. W. Wlugh, full back; Horace L. H. Nutier, T. B. B. Treat. The team is somewhat crippled as some of its members cannot play today.

The funeral services of Mrs. A. Gilman, wife of the late Frank Gilman, were held at the family residence on State street at 4 o'clock Tuesday afternoon and many friends were present. Rev. S. C. Beach, pastor of the Unitarian church officiated and the pall bearers were Messrs. W. D. Wlugh, Frank H. Nutier, William J. Engel and Capt. H. N. Falbarks. The arrangements for the funeral were in charge of Mr. Wilson Crosby, and Mr. Abel Hunt was the funeral director.

A game with the Rockland candlepin club will be bowled on Friday evening at the Grand Central Library. The Rockland team is composed of F. A. Winslow, H. W. Healey, W. J. French, Frank Howells and John W. Thomas. A late contest is expected. The Bangor team has not yet been picked but will be composed of some of the best players in the city. A return game will be played in Rockland some time in November. A small admission fee will be charged to defray expenses.

The charter and ordinances of the city of Bangor together with the acts of the Legislature relating to the city have just been issued from the press of Stewart & Joy. They were revised by Alderman Charles F. Ward, Councillor Harry A. Chapman and City Clerk Victor Brett, commissioners, and published by order of the City Council. They make a volume of 412 pages. The revision has been carefully and well made and the volume will be appreciated by all who have occasion to consult it.

Mr. Chas. Tople has engaged the Auditorium for polo playing the coming winter and there will be games there two evenings each week. Mr. Tople is intending to have an independent team, but as he does not succeed in obtaining a franchise in the Maine Polo League. There seems, however, to be a good prospect that he may get it.

Several days ago Mr. Tople received a letter from Manager Bremham, of Portland, stating that he would withdraw his independent team and again apply for a franchise he would probably get it. Mr. Tople renewed his application yesterday and is now awaiting his reply from the secretary of the league.
